The Company

«CASY uses real-world experience to deliver real-world solutions!»

Casy is an owner-managed software company specialising in management software for 0-3* hotels, resorts, and holiday lets.

The owners have managed their own hotel for more than 20 years and know first-hand what busy people in the hospitality industry need to manage their businesses.

They began to develop CASY for their own use in-house and eventually began to sell it to others in the industry. In 2014, they decided to devote their entire attention to the CASY hotel management software.

Headquartered in Locarno, Switzerland, CASY also has offices in Zurich and Bern.

The CASY hotel management software package is modular. You design the CASY that best serves your needs. CASY Front Desk, the core solution, can be expanded with all sorts of useful options. Beyond the hotel admin and management functions proper, CASY also offers very popular online sales options.

Your Advantages 1/2

«*Cloud-based solution. You have access from anywhere in the world.*»

CASY is a cloud-based solution. You do not need any additional hardware to run it. You can access CASY from any location that has internet access. It's as easy as pulling up a Google search page.

CASY works with Windows, Mac, and Linux machines.

CASY runs on desktop computers, laptops, tablets, and smartphones.

Your Advantages 2/2

«Very easy to learn. A quick and efficient way to get your work done!»

CASY is simple to learn.

Support: We speak your language! CASY won't send you around the world or keep you waiting for hours when you need support. CASY support is located here in Switzerland and will answer your questions in your language.

Thanks to our lean structures, CASY offers an extremely competitive price-performance ratio, even by international standards. CASY pays off within a short time!

Holiday and Illness Coverage

«CASY customers benefit from this exclusive offer!»

If you use CASY, we can even handle your front desk tasks on a temporary basis for as long as you like, so that you can take a holiday or recover from an illness.

We can also set up dynamic pricing for your hotel for better utilization of your capacity and higher yields and even the entire online sales for your hotel. This is very easy to do online, however, if necessary and whenever possible, we can also be on site.

This saves training time and you gain time to work with your guests, while increasing the use of your rooms and your hotel's profits.

Your Contact

«Better to face the digital future than burying your head in the sand.»

Make the move today and rely on CASY, the modern, affordable, and easy-to-use hotel management software.

Make sure that you get your piece of the onlinebookings pie. We know how.
